FOR DISTRIBUTION AND USE ONLY IN IDAHO

Gustafson
LSP Flowable Fungicide
EPA Reg. No. 7501-134

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Seed Peas (For Export Only) - To aid in control of seedborne Ascochyta Blight (*Ascochyta rabiei*): For ready-mix or slurry seed treaters, mix 1.65 fl. oz. of Gustafson LSP Flowable Fungicide in adequate water to provide complete coverage and apply to 100 lbs. of seed.

Keep dispersion under constant agitation. It is essential that thorough coverage of the seed be obtained. Gustafson LSP Flowable Fungicide may be mixed with other products containing Metalaxyl, Thiram and Captan in accordance with the Importing Nation's Phytosanitary requirements.

Seed Labeling: Treated seed must be labeled "For Export Only - Not to be sold or offered for sale in the United States." The U.S. Act requires that treated seed be labeled with the following information:

This seed treated with Thiabendazole at the manufacturer's recommended rate. Do not use for food, feed or oil purposes.

Use with an EPA-approved dye which imparts an unnatural color to the seed.

Do not contaminate water by cleaning of equipment or disposal of waste material.

All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

This labeling must be in the possession of the user at the time of application.
